1.	„Služobné zákroky príslušníkov Policajného zboru a aplikácia zásady primeranosti z trestnoprávneho a administratívnoprávneho hľadiska/Service actions performed by a police officers and the application of principle of appropriateness from the perspective of criminal and administrative law, 2017-2022, national, researcher, APVV-17-0217 The research is focused on a thorough review of the performance of official interventions of members of the Police Force with the use of coercive means, rights, and obligations, emphasizing the legal principle of the

adequacy of the performance of the official intervention. We analyze compliance with the principle of proportionality from three points of view - constitutional, administrative, and criminal. In the research, we will focus on defining the limit and degree of legitimacy of the intervention by a member of the Police Force into the fundamental rights and freedoms of the person against whom the service intervention is performed. Based on a critical legal analysis of relevant legal and internal regulations, decisions of public authorities, and professional and scientific literature, we will bring qualified conclusions and guidelines usable in applied police practice, which will specify how to perform a duty so that its implementation is following the law. Furthermore, thus the basic postulates of democracy and the rule of law were fulfilled.
