We analyze compliance with the principle of proportionality from three points of view - constitutional, administrative, and criminal. In the research, we will focus on defining the limit and degree of legitimacy of the intervention by a member of the Police Force into the fundamental rights and freedoms of the person against whom the service intervention is performed. Based on a critical legal analysis of relevant legal and internal regulations, decisions of public authorities, and professional and scientific literature, we will bring qualified conclusions and guidelines usable in applied police practice, which will specify how to perform a duty so that its implementation is following the law. Furthermore, thus the basic postulates of democracy and the rule of law were fulfilled.</p> <p>The most significant outputs:</p> <p>ACC MEDELSKÝ, Jozef Medzinárodnoprávne aspekty policajného práva: kapitola 6/ International legal aspects of police Law: chapter 6/Jozef Medelský. 1st edition. 5.	<p>FULL-PROOF project (Ensuring the due course of criminal proceedings by strengthening respect for the procedural rights of suspects and the accused) FULL-PROOF The project aims to contribute to increasing the efficiency of criminal justice procedures through a comprehensive approach to addressing violations of procedural rights occurring in the early stages of judicial proceedings, specifically those enshrined in Directive 2012/13/EU, Directive 2013/48/EU, and Directive 2016/1919/EU. The project team will cooperate with police officers and legal professionals to enhance awareness and knowledge, thereby improving approaches to and interactions with suspects and accused persons. This objective will be achieved through a cross-analysis of the most significant and most frequent violations identified in the practical implementation of these Directives.</p> <p>The project seeks to address the common, everyday violations of the rights guaranteed under the above-mentioned Directives and to promote renewed measures at both national and EU levels. It will initiate preparatory work aimed at assessing the replication of best practices at the national level, particularly those relating to routine procedural practices. Furthermore, the project will strengthen the knowledge and awareness of frontline practitioners, facilitate interdisciplinary and transnational dialogue by encouraging the exchange of experiences and practices, and enhance sensitivity, broader interest, and understanding of procedural safeguards and their essential role in upholding the principles of the rule of law.</p> <p>V2 MEDELSKÝ, Jozef Budúcnosť Medzinárodného trestného súdu / The Future of the International Criminal Court.
